Date:	29-5-2008		
Title:	Strive to Survive		
Picture:			
Caption:	. The small green plant is growing among the rocks and rubbish.		
Commentary:	<p>All plants need sunlight, water and soil in order to grow. We can see from this picture that the plant has no rich soil to hold its roots. It seems impossible for it to survive. However, it still grows well, although the environment is not inviting at all.</p> <p>I think we should strive to survive like this plant. Life is full of obstacles and difficulties, we should stand strong and face our problems bravely. We have to face many challenges in our daily lives and it is only with hard work and courage that we could succeed.</p> <p>The ground is full of rocks and rubbish which is not suitable for a plant to grow. Just like us, even though we may not be provided with all the things we need, we should try our very best to get hold of them with our own effort. We will have a bright future if we can work independently and overcome all difficulties positively.</p>
